HAIR:

One elastic the same color as hair
bobby pins
hairnet same color as hair
hairspray

- 1: Put hair in ponytail (while wet is easiest). The ponytail is an extension of the jawline line.
- 2: twist ponytail and wrap around elastic. Pin hair as you wrap. (for longer or thicker hair I suggest putting the ponytail in 2 sections)
- 3: wrap hairnet around hair until there is no hairnet left. Flatten and arrange bun and then bobby pin hairnet down.
- 4: hairspray all hair wisps back.

MAKE UP:

Liquid or powder base
light brown eyeshadow
dark brown eyeshadow
white eye shadow
mascara
dark pink to red blush
red lipstick (or gloss for young girls)
optional eye liner/ fake eyelashes

step 1: liquid or powder base.
(liquid first with powder over sets make-up and helps it last longer). Be sure to apply all over face, up into hairline and down into neck

step 2: base eye shadow
light brown/gold/nude color all over lid

step 3: dark brown eye shadow
in the crease of eye create the number 7. Go across the crease and down to the corner of the eye.

optional for fair skinned dancers Step 4: eyebrows

Step 5: highlighter
using a light white eye shadow highlight under the brows and the inside corner of dancer's eye.

optional for dancers under 11 step 6: eyeliner:
on top eyelid across the whole lash line. On bottom eyelid start at center and go out to corner.

Step 7: mascara
have dancer blink to apply mascara on top lashes

Step 8: blush
two fingers down from eye and one thumb in from nose. Recreating the number 7 just like on the eyes.
Try to stay away from the apples of cheeks and make sure to go all the way to hair line.

Step 9: lipstick
for dancers 8 and under a dark pink to red lip gloss is also acceptable.
for dancers over 11 lining lips with lip pencil, that is the same color as lipstick, will set your lipstick and make it last longer

*For Dancers 11 or older*Step 10: lashes
